Docket No. 98N-1265

Food and Drug Administration APR -7 AIO:11

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

The greatest effectiveness that I have had from pharmaceutical preparations has been from compounded medicines. Compounding allows me to obtain formulations specifically matched to my ~~own~~ needs, and also allows me to receive natural substances that the pharmaceutical companies have been slow to embrace. My apology for the lateness of this. I only recently became aware of this issue.
